PROFESSIONAL SUMMARY

Frontend Developer with 6+ years of experience building scalable, high-performance, user-centric web and mobile applications using React.js and modern JavaScript. Skilled in converting Figma/PSD/XD designs into pixel-perfect, responsive, mobile-first interfaces with clean, reusable, component-driven architecture. Experienced with React Native for cross-platform mobile development, REST API integration, Redux state management, and TypeScript. Proficient in Jest testing, SASS, and Agile delivery using Azure DevOps and Jira. Actively leverages AI-assisted development tools (ChatGPT, GitHub Copilot) to accelerate development and improve code quality.
